Soccer League Reports 2Unify Invaluable To Their Operations

Lauderdale, PA., November 22, 2006: Having just completed their 2006 season, the Loudoun Knights have reported their outstanding results using 2Unify. "With this fall's weather, we chose to use **2unify** at absolutely the right time." said Rich, Team Manager of the Loudoun Knights, an Old Dominion traveling Soccer League team from northern-Virginia.

"The families (members) love the service. It is very easy for them to sign up, and they were very surprised at how simple it is to use. (As the coordinator) I can get a message to everyone in just minutes. I can see who has received my message in real time. I no longer have to try to track people down, person-by-person. This saves me a great deal of time!" reported the team's manager.

"These results match other 2Unify teams' experiences. Team members (families) have a wide range of technical capabilities and comfort. Any contact service must be able to work well for all of them. And for the coordinator, it must be quick and easy to use. The service must be able to immediately show contact results so the coordinators are confident their members are actually hearing the right messages on time".

Headquartered in the Greater Reading Area of Pennsylvania, 2Unify provides teams with communications services – across all their devices. The service is self-service for by each group's coordinator and members supporting real-time message delivery, member polling, and changes to numbers and email addresses. Privacy and confidentiality is under the control of each member and the group. 2Unify's service is built on patent pending technology and processes. The service utilizes world-class communications and information services assuring controls and performance.
